To Improve the Quality of Erasmus Mobility: a Strategic Objective of the Institute Internationalisation Plan

On 16th June in ITE Scarpellini Foligno a dissemination meeting was organised on the International Workshop about Quality Assurance System that was recently held in Sofia within the ENNE network. The large number of teachers attending the meeting showed that the implementation of the Quality System in the Erasmus Mobilities is perceived as a focal point of the Internationalisation Strategy of the Institute. The teacher, Margherita Battaglini, who had been in charge for mobility projects for many years, made an overview of the activities carried out in Sofia and then focused the

29/05-3/06-2022

The long-awaited international workshop on Erasmus Quality Standard for mobility projects was held in Sofia for 25 VET professionals from the ENNE network.

The course was an important opportunity for participating organizations to implement their internationalization strategies with the support of QAS and establish contacts for future partnerships.

audience attention on how the Quality Assurance System works. She encouraged the participants to log in the platform and try to self evaluate the Institute Quality System. Taking the test could be very useful to identify new indicators to take into consideration in order to improve the Institute quality system currently in use for Erasmus mobilities . The next appointment will be a meeting to deepen the topic and to guide the participants in the self-assessment.
