

Excellent National networks for mobility

Establishment national networks

79 participants

1. Provide specialized tools and support
2. Promote interaction and cooperation
3. Involve (new) VET providers in each country

ENNE focus groups

- First year ENNE
- 102 VET providers
- 23 groups
- More participants in the national networks
- Input capacity building

Strengths of VET

- Connection labourmarket
- Personalized learning
- supporting and guidance possibilities to deal with complexity and uncertainty of change
- Desire centrality of the student
- More local collaboration
- Designing effective learning paths
- Development transversal/personal skills

Weakness of VET

- Negative image of VET (exception is Germany)
- Obsolete equipment
- Training programmes too rigid and/or outdated
- Dealing with different and innovative teaching methods

Benefits of VET mobility

“Packing your bags and participating in Erasmus mobility makes you grow”

- Personal and professional growth
- Responsibility ⇒ strong motivation
- Stronger competences, cv, language and interpersonal skills
- Opens travel possibility to anyone.
- Students, trainers and companies

Influences participation in mobility

- Knowledge of language
- “fear” experience foreign country
- Difficult finding accompanying trainer/tutor
- Resistance of families
- COVID

⇒ Opportunity: identification alternative transnational mobilities.

Expectations VET actors

- Awareness-raising
- Training
- Project design
- Projectmanagement

⇒ Implemented in ENNE actions
